7.00 to 22.00

Ground Floor - HOTEL du LAC SIGNATURE

The Secret **INSIDE A CUP OF COFFEE**

Many people think a Barista simply makes coffee. But in reality, just a few seconds can completely change the taste of a drink.

If an Espresso pours too fast, the flavor becomes weak, too slow and it turns bitter. That is why Baristas do not only learn how to brew coffee.

They learn how to "listen" to it: from the sound of grinding beans to the color of the crema, even the weather outside.

Behind the bar, being a Barista is a blend of art and science, where every second matters. Because they are not simply making drinks. They are creating a feeling people remember long after the first sip.
